A leading national IT and Life Sciences staffing and consulting firm has opened a new office in northern Virginia to accommodate the burgeoning needs of its partners throughout the region

Wakefield, Mass., Oct. 1, 2014 – Due to its continued growth and desire to be in close proximity with its national clients in the mid-Atlantic region, Eliassen Group, one of the largest IT and Life Sciences staffing and consulting firms in the country, has opened a new office in Virginia.

The new office is at 12020 Sunrise Valley Drive #102, Reston, VA, 20191.

Eliassen Group President Mark Biscoe said the new office will help the company serve the desires of its corporate and federal government agency partners situated in Virginia and Washington, D.C.

“The opening of this office is a direct result of the increasing demand for our industry-leading services across the entire mid-Atlantic region,” Biscoe said. “Our partners in the area asked us to develop a local presence to help them meet their objectives for growth, and we are thrilled to have the opportunity to enhance our existing relationships, while also getting the opportunity to develop new ones as well.”

Reston sits in the heart of the *Dulles Technology Corridor*, which contains a plethora of defense and technology companies located adjacent to Washington Dulles International Airport. The region is home to more telecom and satellite companies than any other place in the world and is annually recognized as one of the Top 5 job markets in the U.S.

“With Eliassen Group’s *solution-oriented* approach to understanding the needs of our partners, and helping them find the best possible talent available to help them complete the work and projects that enhance all of our lives, we are ecstatic to start this new endeavor,” Biscoe said.

Headquartered in Wakefield, MA., with additional offices in New London, CT., Louisville, KY., Baltimore, MD., Bethesda, MD., Somerset, NJ., New York, NY., Charlotte, NC., Cincinnati, Ohio, and Conshohocken, PA., Eliassen Group has been recognized by *Staffing Industry Analysts’* as one of the largest IT staffing and consulting firms in the country, and has been named to the INC. 500/5000 list as one of the fastest growing private companies for the last seven years.
